DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Also all rectangular boxes in the drawings should be labeled. See 37 CFR 1.83 Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

3. The abstract of the disclosure is objected to because the abstract should be in a separate page. The abstract provided is that of a corresponding PCT application. Correction is required. See MPEP § 608.01(b).

Allowable Subject Matter

4. Claims 1, 5 and 7-11 are allowed.

Art Unit: 2859

5. The following is a statement of reasons for the indication of allowable subject matter: The prior art considered does not disclose nor fairly suggests a probe for NMR having a reduced diameter section and supporting shim coils in a structure as claimed.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 2-4 and 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "preferably" in line 2 of claim 2 renders the claim indefinite. Claims 3-4 and 6 are indefinite as they depend from indefinite claim 2.

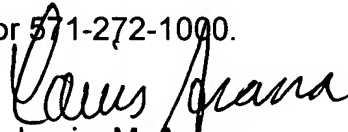

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lukens et al., Behbin et al., and Cordington all disclose NMR spectroscopy sample holder structures. Note the drawings of each of these disclosures.
